

# GET THE LEAD OUT!

## WHAT IS LEAD?

- ◆ Lead is a soft metal that was used for plumbing fixtures for many years.
- ◆ Old pipes were often sealed with lead solder.

## WHY BE CONCERNED?

- ◆ Lead is a toxic material, known to be harmful to human health if ingested or inhaled at high levels.
- ◆ Even at low levels, lead is believed to contribute to a range of health issues including behavioral problems and learning disabilities, especially in young children.
- ◆ Lead in the human body can damage the brain, kidneys, nervous system and red blood cells.
