

# PENTAIR FILTRATION

NO BETTER CHOICE FOR  
YOUR FILTRATION NEEDS

# The complete range of Pentair filtration components

Our filtration portfolio offers quality, high-performing products, your one-stop-shop for filtration needs.

It covers a wide range of applications, from basic taste & odor reduction or particle filtration, to state-of-the-art reverse osmosis membrane technology. To help you best meet your customers' unique water needs, you can also select from our array of filtration components to create a customized system.

## MANUFACTURING AND INNOVATING WATER FILTRATION SINCE 1967

### Product design and innovation

For industry needs through state-of-the-art laboratories and best-in-class team of engineers

### Certification to industry standards

Majority of claims are backed by third-party testing

### Breadth of solutions

For a wide variety of applications to support you and your customers

### Two ISO certified factories

100% owned by Pentair with a commitment to quality

### Components

### Consumables

### Components

#### Plastic housings

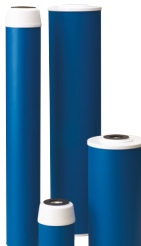

#### TLC series

#### Carbon blocks

#### Granular activated carbons

#### Impregnated carbons

#### Fibredyne

#### GS series

#### Meltblown cartridges

#### Wound cartridges

#### Pleated cartridges

#### PCF series

#### RFPE series

#### BP series

	Housings	RO membranes	Carbon cartridges				Sediment cartridges			Sediment cartridges	Specialty cartridges		Filter bags
Type	POU/POE	POU	POU/POE	POU/POE		POU	POU/POE	POU/POE		POU/POE	POU/POE		POE
Applications	Residential & commercial, prefiltration	Residential, dissolved solids removal	Residential & commercial, taste & odor removal	Residential & commercial, taste & odor removal		Residential & commercial, taste & odor reduction, additional contaminant reduction	Residential, post filtration	Residential, commercial & industrial, particle filtration		Residential, commercial & industrial, particle filtration	Residential and commercial applications		Commercial & industrial, particle filtration
Features	High-quality materials and superior durability for long-lasting, reliable service	Features a 100% dry membrane	Highest capacity and performance, long life with minimal pressure drop	Loose carbon granules provide good contact time at lower capacities	Economically priced option for low contact time applications	All-In-One solution that provides 5x dirt-holding capacity (less frequent cartridge changeouts) and the lowest pressure drop leading to consistent, reliable water flow in the home	Various combinations of different media	Long-lasting performance with optimized flow rates	Economically priced option for water with high turbidity	Versatile and dependable surface filtration	Manufactured with high-capacity, semi-conductor- grade resin	Designed to provide an easy and effective method of reducing iron from water	Glazed Polyester material, fits into industry standard sized metal bag housings
